I'm sorry. This has been an issue w me for 8 years. It physically hurts me to see EVERYONE else in their life do things for them and I'm forced to ALWAYS be the bad guy

I am not the same as everyone else. Most of the time I try to do what is healthy/smart for them. More importantly I try to support you and what you need. You just lashed out at me and said terrible things. I don't know how you've gotten to this point with me when I'm just trying my hardest. You made your point, and continue to beat me down. I have a lot going on too. Physically I am falling apart and trying to get answers and help.

I don't want to keep having this constant conflict of the dynamic of the four of us. The harder I try, the more it kills our relationship as a couple. It feels like utter shit to be in this position. Rather just meet you out for drinks when you figure out what your night looks like.

I am not the same as everyone else. Most of the time I try to do what is healthy/smart for them. More importantly I try to support you and what you need. You just lashed out at me and said terrible things. I don't know how you've gotten to this point with me when I'm just trying my hardest. You made your point, and continue to beat me down. I have a lot going on too. Physically I am falling apart and trying to get answers and help.

I am not the same as everyone else. Most of the time I try to do what is healthy/smart for them. More importantly I try to support you and what you need. You just lashed out at me and said terrible things. I don't know how you've gotten to this point with me when I'm just trying my hardest. You made your point, and continue to beat me down. I have a lot going on too. Physically I am falling apart and trying to get answers and help.
