I've been getting a lot of negative feedback lately about all the copyright strikes that took down the 1a Audits Exposé channel and has some other troll channels worried if they are next.

I understand that people are upset and emotions are high.

So I wanted to take a moment to respond thoughtfully and professionally...

You got upset that Patrick gave his opinion on DMA's case against FT and you proceeded to put out videos on Patrick including insulting one that insulted his religion. This video is deserved and you are the most unprofessional attorney I've ever seen
