### The Heavy Hitters

New from Mailroom Boy, YouTube's dumbest "paralegal," and his buffet-destroying bride: a dramatic reading about yours truly.

Starring a man who thinks "I disagree" is a fair use defense, that suing someone with money is "bad faith," and whose legal career has all the upward momentum of his wife at the dessert bar.

Featuring more projection than an IMAX theater and more filler than his plus-sized wife's plate at buffet closing time, you know, when she's loading up like it's the last supper.

Because Mailroom Boy loves his plus-sized ladies... and still dreams of the day he's promoted to Head of Office Supplies. Work hard, champ, someday you just might achieve those goals.

Until then, enjoy watching your plus-sized wife knock over a sneeze guard trying to reach the deep-fried section.
