Dude, why are you doxing the bounty hunter. He doesn't work for the government

This is out of character even for you, it looks like you're power tripping and now you are doxing regular citizens...

Hi there,

I hope this email finds you in good health and spirits. It has come to my attention that Jacob did not file the privacy complaint on my video but in fact you did it for him. I have a recorded phone conversation where Jacob admits you reached out to him and asked him if you could file the complaint on his behalf. You had to check all the boxes stating you were Jacob and also had to sign Jacob's name. Not only is this a violation of YouTube's terms of service, this is a federal crime of fraud, punishable by 10 years in prison. Look up 8 USC 1324c: Penalties for Document Fraud. You can also tack on conspiracy as well since you two are working together to cause me monetary damages. This is not a good look for you buddy

My suggestion to you, is to remove the privacy complaint. If you fail to do so, I will go on panel and play the phone conversation of Jacob telling my friend that you asked him if you could file a privacy complaint in Jacob's name. I've been leaving you alone and I don't want beef with you. It is advantageous for the both of us if you remove the complaint. I don't want to make this bigger than it needs to be.

Sincerest regards,
DMA

Nah bro you have been told wrong, when i called Jacob to invite him for an interview he said that he already filed the privacy complaint against you. Keep in mind that only the person that is in the video can file a privacy complaint and needs to provide ID, now how the hell would i get his ID?

That's something you need to hash out with Jacob then. Here's the clip where he throws you under the bus.

Jacob admitting Frauditor Troll made the privacy complaint on Jacobs behalf

hey

By the way,

Were good, you got lied to and you ran with it. You made a mistake, I made my livestream and we are back to where we were. I really hope that you won't be doxing regular free americans in the future.

Josh
